**WM. A. TAYLOR, Chief of Bureau.**

---

**SERVICE AND REGULATORY ANNOUNCEMENT.**

**MARCH, 1922.**

---

**THE ADULTERATION AND MISBRANDING OF THE SEEDS OF ORCHARD GRASS.**

During the calendar year 1920 seed of orchard grass was procured in the open market in accordance with the following paragraph in the act of Congress making appropriations for the Department of Agriculture:

“Where such samples [seeds of grasses, clover, or alfalfa and lawn-grass seeds secured in the open market] are found to be adulterated or misbranded, the results of the tests shall be published, together with the names of the persons by whom the seeds were offered for sale.”

In carrying out the provisions of this act, 371 mail samples and 420 purchased lots of seed in bulk were obtained.

These were examined in the Seed Laboratory of the Bureau of Plant Industry, and publication is here made of the results of the analyses of the samples found to be adulterated or misbranded, together with the names of the seedsmen by whom they were sold or offered for sale. (Table 1.)

Seed purchased from thirteen firms was found to be adulterated or misbranded. That from six firms contained practically no orchard-grass seed. That from four firms was a mixture of orchard-grass seed and the seed of rye-grass or meadow fescue, or both; and that from two firms was strikingly below the stated percentage of purity.

The Bureau of Plant Industry of the United States Department of Agriculture will continue to examine and report promptly as to the presence of adulterants and dodder in any sample of seed submitted for that purpose. According to the location of the sender, these samples may be submitted to the Seed Laboratory at Washington, D. C., or to any of the following laboratories maintained through the cooperation of this department: Branch Seed-Testing Laboratory, Agricultural Experiment Station, Columbia, Mo.; Branch Seed-Testing Laboratory, Agricultural Experiment Station, College Station, Tex.; Branch Seed-Testing Laboratory, Oregon Agricultural College, Corvallis, Oreg.; Branch Seed-Testing Laboratory, Purdue University, La Fayette, Ind.; Branch Seed-Testing Laboratory, California Department of Agriculture, Sacramento, Calif.

Approved:  
HENRY C. WALLACE,  
Secretary of Agriculture.

WASHINGTON, D. C., March 11, 1922.
